## Reaction messages webhook reference

Updated: Nov 14, 2025

This reference describes trigger events and payload contents for the WhatsApp Business Account **messages** webhook for messages containing a reaction to a previous message sent by a business. **Note:** when an end user removes a reaction emoji, a webhook without the “emoji” field will be sent as shown in the sample webhooks below

### Triggers

A WhatsApp user reacts to a previous message sent by a business within the last 30 days. A WhatsApp user removes a previously sent reaction to a previous message sent by a business within the last 30 days

### Parameters
