Version

API for onboarding partners to WhatsApp Business MM Lite partnerships.

This endpoint enables solution partners to initiate MM Lite onboarding requests to end businesses.

The API validates eligibility, creates business agreement requests, and automatically configures OBO (On Behalf Of) WABA mobility intents for eligible WhatsApp Business Accounts.

Core Functionality:

Validates partner business and application ownership

Checks end business eligibility for MM Lite partnerships

Identifies eligible shared WABAs and OBO WABAs associated with the partnership

Automatically sets mobility intents on eligible OBO WABAs (BSPs only)

Creates a business agreement request with MM_LITE_ONBOARDING type

Returns a unique request ID for tracking the onboarding process
