WhatsApp Cloud API - Media API

Copy for LLM

[View as Markdown](#)

Version

Retrieve and delete uploaded media files by media ID.

Get media URLs with file metadata including size, MIME type, and SHA256 hash.

Media URLs are valid for 5 minutes after retrieval.

Select language

Select status code

DELETE /{Version}/{Media-ID}

To delete media, make a DELETE call to the ID of the media you want to delete.

Prerequisites

[User Access Token](#) with `whatsapp_business_messaging` permission

Media object ID from either uploading media endpoint or media message Webhooks

Responses

To delete media, make a DELETE call to the ID of the media you want to delete.

Prerequisites

[User Access Token](#) with whatsapp_business_messaging permission

Media object ID from either uploading media endpoint or media message Webhooks
